## PT 800 PLUS glass pre-treatment cleaner

Pretreatment product for bonding and sealing applications

Basis: White Spirit

### Product Description

PT 800 PLUS glass pre-treatment cleaner is a liquid universal pretreatment product. Base of the product is white spirit (aromatic free and low n-hexane content). It contains no chlorinated hydrocarbons; it is not harmful to car paints when used on a short-term basis. PT 800 PLUS will not inhibit the curing of adhesive/sealants.

### Application Areas

PT 800 PLUS is mainly used for pretreatment of substrates prior to application of adhesives and sealants. Accurate pretreatment of surfaces is essential for a perfect adhesion. Depending on the basis of the adhesives and sealants PT 800 PLUS can also be used for removing of tools and contaminated surfaces. PT 800 PLUS has also good properties to remove silicone residues.

### Technical Data

Colour:	transparent
Consistency:	of white spirit
Density:	approx. 0.71 g/cm <sup>3</sup>

### Preliminary statement

Prior to application it is necessary to read the **Safety Data Sheet** for information about precautionary measures and safety recommendations. Also, for chemical products exempt from compulsory labelling, the relevant precautions should always be observed.

## Application

Depending on the degree of contamination, size and shape of the parts to be treated, PT 800 PLUS glass pre-treatment cleaner is applied and wiped off with a non-woven tissue or the like. To prevent contamination of the contents in the original packaging, the product should either be poured onto the tissue (Attention: Do not press the tissue against the opening and invert the container!) or transferred to another clean container (metal can or the like). Dispense only the required amount and then reclose the original container immediately. The pretreated surface must be allowed to dry completely before applying the adhesive or sealant.

## Storage

Frost-sensitive:	no
Recommended storage temperature:	5 °C to 25 °C
Shelf life:	24 months in original packaging

## Container/packaging units

PT 800 PLUS glass pre-treatment cleaner is supplied in 1000 ml single containers.

## Hazard Indications/ Safety Recommendations/ Transport Regulations

see Safety Data Sheet

**This Technical Data Sheet supersedes all previous editions.**

### Disclaimer

#### Note:

The above information, in particular the suggestions for processing and use of our products, is based on our knowledge and experience in standard cases. To ensure that the above information in the technical data sheets can be complied with and the respective product used or processed properly, the products need to be stored correctly. In addition, the above information reflects our state of knowledge at the time of printing this note. We are constantly striving to improve our products, and as such reserve the right to make changes to product specifications and processing instructions. The most current technical data sheet at the time of processing/application shall apply. The user must therefore always check the suitability of the products for the intended application and obtain advance information of any changes to the product specifications at PMA/TOOLS. We would like to point out the following: In particular where our products are processed and used without observing the product specification and without complying with the current processing instructions, there will be no warranty for the processed or used product unless the customer (who processed the product) can prove that an alleged defect of the product was already present (i.e. independent of processing or use) when the risk passed from us to him as the customer. Due to the different materials, substrates and different working conditions when processing or using the product, no liability for any working results will be accepted in other regards, except where that we have provided an express assurance for a working result. We would like to point out that any such additional assurance would have to be presented and, if necessary, proved by the party relying on it, i.e. by the party asserting a warranty. In all other respects, our general terms and conditions apply.
