

# Technical Data Sheet

## CITRO Glass cleaner

Perfect cleaner for all glass and mirror surfaces, solution contains cleaning alcohol. Dissolves grease, oil, soil sediment, nicotine and finger marks rapidly and safely. Allows a streak-free cleaning of shiny surfaces. Most suitable for surface spray cleaning. The use of suitable microfiber towels increases the cleaning efficiency.

### Application Area

For regular cleaning of glass, mirror and other water resistant and closed surfaces. CITRO Glass cleaner is the perfect combination between hi-gloss drying effect and reliable cleanliness. Always test compatibility of materials in an inconspicuous place before using.

### Application

Apply neat and wipe dry.

### Technical Data

Appearance:	clear, blue liquid
Odour:	like lemon
Viscosity:	thin fluid
Density:	990 g/L
pH-value:	10

### Ingredients

Contains:	below 5 % anionic surfactants, perfumes, preservation agents
GISCODE:	GGL20

The surfactants contained in this preparation comply with the biodegradability criteria as laid down in Regulation (EC) No. 648/2004 on detergents.

#### Note:

The above information, in particular the suggestions for processing and use of our products, is based on our knowledge and experience in standard cases. To ensure that the above information in the technical data sheets can be complied with and the respective product used or processed properly, the products need to be stored correctly. In addition, the above information reflects our state of knowledge at the time of printing this note. We are constantly striving to improve our products, and as such reserve the right to make changes to product specifications and processing instructions. The most current technical data sheet at the time of processing/application shall apply. The user must therefore always check the suitability of the products for the intended application and obtain advance information of any changes to the product specifications at PMA/TOOLS. We would like to point out the following: In particular where our products are processed and used without observing the product specification and without complying with the current processing instructions, there will be no warranty for the processed or used product unless the customer (who processed the product) can prove that an alleged defect of the product was already present (i.e. independent of processing or use) when the risk passed from us to him as the customer. Due to the different materials, substrates and different working conditions when processing or using the product, no liability for any working results will be accepted in other regards, except where that we have provided an express assurance for a working result. We would like to point out that any such additional assurance would have to be presented and, if necessary, proved by the party relying on it, i.e. by the party asserting a warranty. In all other respects, our general terms and conditions apply.
